Responsibilities

- Follow the CALLS of the competent authorities and evaluate the participation of the PFP, promoting its dissemination and adherence to our members
- Support the Calls application, management and respective monitoring reports of the selected projects
- Capacity for individual initiative and organization, able to work as a team with PFP members, consultants and project promoters, management of its Thematic Groups and organization of workshops, fairs and business missions, especially the largest national railway event, the Portugal Railway Summit.

Profile

- Higher education, preferably in the field of Engineering: Civil, Mechanical, Electrotechnics, Computer Science or equivalent work experience.
- With experience in similar roles in applications, assistance and management of national and European calls /Projects, as well as their reports and payment requests,
- Sense of responsibility, autonomy and dynamism in the development of their actions, with familiarity with the activities of the railway sector (preferential factor)
- Mastery of English, oral and written, is a mandatory factor, as well as all the today's necessary digital tools

Proposal

- Competitive salary according to the candidate's role and experience
- Integration into a high-potential, innovative and ambitious association
- Participation in institutional relations at the highest level, in national and international projects
- Flexible work environment with autonomy in the remote work policy, results-oriented and work developed

About PFP – Portuguese Railway Platform Cluster Association

With the vision of "making Portugal an international reference center in the railway sector and a privileged place for the development of RDI projects in the railway area", the PFP – Portuguese Railway Platform Cluster Association was established on July 23, 2015, which today brings together more than 100 members, divided into large companies (public and private), small and medium-sized enterprises (SMEs), SI&I non-business entities and other business associations, seeking the representativeness of the railway value chain in Portugal. Since 2017, it has had the recognition and status defined by IAPMEI, as the National Railway Competitiveness Cluster.
